Safety first. A seat cover protects your car, not your dog. Dogs can be restrained in the back seat with a crash-tested harness, or in a secured crate. A walking harness is not the same thing. Never leave your dog unattended in a car, even in mild weather. Laws vary, so check your local road rules.

Good to know

- Car sick? Talk to your vet well before the trip.
- Take the cover off and let it dry fully before you fold it.
